## Other Advanced divisions

### Business solutions

#### Advanced Business Solutions

Advanced Business Solutions' highly scalable software solutions are widely used in a large range of service-based organisations. Our Smart Business Suite of applications combines core financial business accounting software systems, procurement software, human resource and payroll systems, with a range of collaborative, document management software and business intelligence software solutions.

These capabilities extend the value and effectiveness of the Finance, Human Resource and Payroll departments across the organisation and enable managers in the business to monitor, analyse and continually improve corporate performance.

### Managed services

#### Advanced 365

Advanced 365 are UK leaders in the outsourcing of IT infrastructure and applications. We design, deploy, operate and improve IT services from the desktop to the data centre that help customers to align their IT to their core business requirements. We aim to help IT departments free themselves from day to day operational activity to allow them to deliver strategic value back to their business by creating an agile and scalable infrastructure that is closely aligned to their organisations' core business operations.
